Winnings from Free Spins carry a 1x (one times) wagering requirement, see below.

Wagering Requirements for Bonus

The wagering requirement of 10x (ten times) the deposit + bonus must be met to convert the bonus funds or bonus winnings to cash.

Therefore, the requirements specified above means that players have to wager 10x (ten times) the amount of the deposit + bonus before they can withdraw any bonus funds and bonus winnings, which will be noted under bonus balance.

Wagering requirements refer to the amount of money players stake during the betting process, relative to the amount of the deposit + bonus - otherwise known as the amount 'turned over.'

For example, if a player were to receive a \$1,000 bonus, they will then be required to place bets to the value of \$20,000 [$(\$1,000 \text{ deposit} + \$1,000 \text{ bonus}) \times 10$] before the bonus money and bonus winnings become cashable.

Wagering Requirements for Winnings gained from Free Spins

The wagering requirement of 1x (one times) the winnings from free spins must be met to convert the bonus funds or bonus winnings to cash.

Therefore, the requirements specified above means that players have to wager 1x (one times) the amount of the total winnings from the free spins before they can withdraw any bonus funds and bonus winnings, which will be noted under bonus balance.

Wagering requirements refer to the amount of money players stake during the betting process, relative to the amount of the bonus - otherwise known as the amount 'turned over.'

For example, if a player were to win \$50 from free spins, they will then be required to place bets to the value of \$50 ($\50×1) before the bonus money and bonus winnings become cashable.

General Wagering Requirement

Games will contribute differently to the wagering requirements:

Slot games: 100%.

Table Games: 25%, Roulette: 25%, Blackjack: 25%, and Video Poker: 25%.

For example: a \$10 bet on a slot game listed at 100% will count as a \$10 bet towards meeting the wagering requirements. A \$10 bet on a game listed at 25% will count as a \$2.50 bet towards meeting the wagering requirements.

All winnings made with bets from the bonus wallet will be retained in the bonus wallet until the wagering requirements are completed.

For clarity, all winnings from bets made with cashable wallet funds (player's own cash) are available for the player to wager or withdraw at any time.

Player's cashable funds (player's own cash) is wagered first at all times, even if a cash deposit is made before using all the bonus funds.

If a customer attempts to withdraw with any bonus balance that is active, they will be given the choice to continue to withdraw and forfeit their existing bonus balance (which will include any winnings made with bonus funds or a portion of bonus funds) or cancel the withdrawal to continue playing and retain the bonus balance.

Any player that accepts to continue the withdrawal and forfeit the current bonus balance will not be able to change this after clicking on the accept button.

If the wagering requirements are not completed within thirty days, the entire balance (bonus + bonus winnings) will be removed.

Cancellation/Opt-Out

Players may cancel/opt-out of a promotion by contacting customer support via our Help Center.

Upon request for cancellation, customer support will inform the player of the amount of unrestricted funds (cashable) that will be returned and the value of restricted funds (non-cashable) that will be removed from the player's Internet gaming account.

If the player elects to proceed with cancellation, unrestricted funds (cashable) remaining in the player's Internet gaming account will be returned in accordance with the terms and conditions.
