

These are the terms and conditions for Scores Casino's first deposit bonus. To read more about Scores visit our [Scores Casino NJ](#) review.

#### Double Deposit Terms & Conditions

This 1st Deposit Bonus is valid from December 26, 2015 through December 31st, 2019 on ScoresCasino.com.

**The 1st Deposit Bonus is a 100% Match Deposit Bonus up to \$500.  
No promo code required**

Offer applies to your first deposit only. No code required – do not enter a code on your first deposit. If you enter a code, the promotion attached to that code will take precedence over the 1st Deposit Bonus.

Example: If a player deposits using promotion code FRIDAY50 on their first deposit, they will receive the FRIDAY50 offer over the 1st Deposit Bonus.  
The 1st Deposit Bonus expires 15 days from issuance.

The play through contribution percentage for casino games varies, please see the Bonus Wagering Requirements page for more details.

Deposit, 1st Deposit Bonus and any winnings cannot be cashed out until play through requirements are met.

**1st Deposit Bonus play through requirement = 10X play through on both the deposit and the deposit bonus.**

For example: The player's first deposit with ScoresCasino.com is \$200. ScoresCasino.com will match that deposit with a \$200 Deposit Bonus. Both the \$200 Deposit and the \$200 Match Bonus for a total of \$400 must be wagered a minimum 10X for a minimum total of \$4,000 before the deposit, bonus or any winnings may be withdrawn. If the player wants to forfeit the \$200 Match Bonus and withdraw their initial funds, they can do so at any time.

When a bonus is issued, money for wagers is first taken from the restricted amount which is subject to wagering restrictions. Money is taken from restricted deposit amount first, if any, before using the bonus money. Any winnings first replenish the bonus and the restricted deposit and are used next. Upon completion of wagering requirements, any restricted amount including winnings will be credited to player's unrestricted account balance, and any subsequent wagers will be debited from the unrestricted account balance.

Player can forfeit the bonus at any time while it is Active in the account. Any restricted bonus amount and winnings will be forfeited and removed from the account. The amount of restricted deposit remaining will be released from the wagering restrictions and added back to the unrestricted account balance.

The 1st Deposit Bonus is non-transferable.

All games at ScoresCasino.com are eligible for the play through requirement.

Minimum deposit is \$10.

ScoresCasino.com reserves the right to change or cancel this promotion in its entirety at any time. ScoresCasino.com also withholds the right, at its discretion, to exclude any individual or individuals from participation.

All General ScoresCasino.com Terms & Conditions Apply

#### Scores Casino Bonus Wagering Requirements

The wagering requirements needed to clear a casino bonus vary by game. Below are examples on how bonuses can be cleared with detailed play through contributions per game at Scores Casino:

#### Clearing a bonus on a 100% contribution game

A player has a \$100 Casino Bonus with a 10X wagering requirement. The Player wagers \$1,000 on Berryburst (100% play through contribution).

All \$1,000 or (100%) of their wagering on Berryburst contributes towards the wagering requirements to clear the casino bonus. The wager requirements would be satisfied in this example.

#### Clearing a bonus on games with variable contribution games

A player has a \$100 Casino Bonus with a 10X wagering requirement. The Player wagers \$500 on Berryburst (100% play through contribution), \$250 on a Starmania (20% play through contribution) and \$250 on Blackjack.

The \$500 wagered on Berryburst contributes 100% towards the wagering requirements to clear the casino bonus.

The \$250 wagered on Starmania contributes 20% towards the wagering requirements to clear the casino bonus.

The \$250 wagered on Blackjack will not count towards the bonus clearing wagering requirements.

In total the player in this example would have cleared \$550 of the 10X wagering requirements:

\$500 from game play on Berryburst.

\$50 from game play on Starmania.

\$0 from the Blackjack.

The player would still have \$450 in wagering at 100% contribution to clear the bonus.
